CMI auditors perform the full range of auditing services - from focused, single-issue audits such as fleet safety and process safety to full-scale, multi-media compliance and management system audits. Our growing list of clients represents virtually all industries. These include printing, chemical/pharmaceutical, energy, transportation, general manufacturing, petroleum/petrochemical, forest products, high tech/semiconductor, and specialty chemicals.

### **CMI provides facility owners with EHS audits to avoid:**

- Lawsuits, fines, violations and corrective actions surfaced by regulators and disgruntled employees
- Interruptions of operations due to EHS non-compliance by regulatory inspections and
- Loss of property and liability insurance coverage due to non-compliance

### **CMI provides a comprehensive facility audit that will benefit facility owners by:**

- Identifying areas of non-compliance before an agency inspection reveals them'
- Help demonstrate EHS stewardship, adding credibility and confidence to employees, neighbors and customers and
- Avoiding loss of insurance coverage

### **Through our network of experienced EHS professionals, CMI works with you to develop a comprehensive EHS compliance plan that includes:**

- Regulatory compliance audits to identify existing and on-going non-compliant conditions and
- Timely turn-around on audits, reports, agency notifications and other compliance activities

As part of our audit program management services, CMI offers clients our customized, web-based Comprehensive Audit Tracking System (CATS™) which can be used to plan and manage any size or type of audit program, create on-site audit reports, track closure status of corrective actions, and analyze audit results across groups, business units and facilities.
