## Construction and Contractor Safety and Environmental Services

Our team of Certified Safety Professionals (CSP), Certified Industrial Hygienists (CIH), and Environmental Engineers work hand-in-hand with our clients to ensure any construction or renovation project is conducted in a safe, healthy, and environmentally sustainable manner. We can support your in-house staff, become an integrated part of your onsite project team or act as an owner's representative.

### Project Onsite Safety Services

- Full- or part-time safety managers assigned to your project
- Pre-planning meetings with owners and subcontractors
- Development and delivery of site-specific orientation, stand-downs, and toolbox talks
- Safety documentation development and reviews (e.g., JSAs, Crane Lift Plans, etc.)
- Specialized training (e.g., Forklift, Rigging, Confined Space, Steel Erection, Fall Prevention)
- Jobsite safety inspections and foreman coaching
- High risk activity assessments and oversight (e.g., Crane Lifts)
- Liaison to owners, insurance representatives, OSHA and local authorities
- Incident reporting, investigation and corrective action management

### Outsourced Safety Program Management

- Senior professionals act as your in-house safety manager or owner's representative
- OSHA policy and procedure development and oversight
- Training and coaching for project managers, front line supervisors, and employees
- Subcontractor prequalification program management
- Site safety inspections and corrective action plans
- Safety committee meetings and follow-up support
- Project health and safety plans (HASPs)
- Access to subject matter experts on-demand (Construction Safety Professionals, Industrial Hygienists, Environmental Engineers)

### Additional Services

- Hazardous material (Lead, Asbestos, PCB) surveys and remediation plans
- Employee exposure assessments (Silica, Lead, Noise)
- Stormwater permits and sampling
- Soil, groundwater and spill investigations
- Air permits and off-site emissions control
- OSHA inspection and citation support
- Risk assessment and job hazard analysis (JHA)
- Safety stand-downs and culture improvement
- Third-party contractor program compliance and updates (Avetta, ISNetworld)
