

## COURSE DESCRIPTION:

This course will identify the sources of lead exposure, the symptoms of lead poisoning, the protective measures used to safeguard against lead exposure and poisoning, including devices and practices, and the monitoring and testing that measure the degree of existing lead poisoning. When your job involves working with lead, awareness of potential exposure, knowing what to do to prevent exposure, and knowing how to protect yourself are key ingredients in reaching and maintaining a healthy life and a safer workplace.

## REGULATORY REFERENCE:

29 CFR 1910.1025

## APPROXIMATE DURATION:

25 Minutes

## COURSE OUTLINE:

1. Introduction
2. Training Objectives
3. What is Lead?
4. Exposure Methods
5. Signs and Symptoms of Exposure
6. How Do I Protect Myself?
7. Methods of Compliance
8. Engineering Controls
9. Material Substitution
